SUMMARY

I'm a business analyst who learned to build. Three years in IT pre-sales showed me where deals and data actually break; an M.S. in Business Analytics gave me the tools to fix it. I turn problems I've lived through into working AI tools — three shipped and live, on my own — at the meeting point of finance, data, and machine learning. Looking for data and business analyst roles where I can build, not just report.

EXPERIENCE

Student Research Intern — Accounting Analytics

Jan 2026 – Aug 2026

Rochester Institute of Technology, Rochester, NY

- Read and tagged 49+ papers across 12 top information-systems journals (MIS Quarterly, ISR, JIMIS) on AI and ESG, keeping the research library organized and searchable.
- Prepped manuscripts for journal submission.

Graduate Assistant — Financial Analysis

Sep 2024 – May 2025

Rochester Institute of Technology, Rochester, NY

- Used R and Python to study company fundamentals and surface market trends the finance team used to manage portfolio risk.
- Built valuation and volatility models for ongoing corporate-finance research.

Business Analyst

Jul 2022 – Jul 2024

Impelsys Pvt Ltd, Bangalore, India

- Owned the RFP/RFQ process across \$250K+ in deals over my time there — wrote the proposals and pushed our win rate up 25%.
- Scoped and priced SaaS deals with the team, landing within 85% of final scope and margin.
- Ran 20–25 bids a year and demoed to C-suite buyers across education, publishing, and healthcare.

SELECTED PROJECTS (SOLO, END-TO-END)

- **BidCraft — AI RFP automation** (live): turns the 40–60-hour RFP grind into a grounded, confidence-scored first draft — reads an RFP, finds your strongest past answers by meaning (pgvector), and writes the response. Born from running 20+ enterprise proposals a year at Impelsys. Next.js 16 · Claude API · Voyage AI · Supabase. bid-craft-beta.vercel.app
- **Customer churn & survival analysis**: predicts not just who will churn but when — XGBoost for the who (0.981 AUC, 0.84 F1), a Cox survival model for the when, SHAP for the why. ~5,600 real e-commerce customers.
- **S&P 500 options trading bot** (live): automates a premium-selling options strategy (IV rank, RSI, Greeks) to strip out the discretion that breaks it by hand — executed via the Alpaca API. trading-bot-dashboard-five.vercel.app
- **Precision Retail Pro** (live): turns two CSVs — inventory + sales — into demand forecasts (Prophet) and ABC stock alerts, giving small retailers the inventory intelligence that SAP/Oracle price out of reach. precision-retail-pro.vercel.app

EDUCATION

M.S. Business Analytics (STEM)

Aug 2024 – May 2026

Rochester Institute of Technology — Saunders College (AACSB) · GPA 3.89/4.0

B.B.A. Finance & International Business

Jun 2019 – May 2022

CHRIST University, Bangalore (NAAC A+) · CGPA 8.97/10

Advanced Certificate, Business & Data Analytics

May – Jul 2025

IIM Udaipur (AACSB accredited)

SKILLS
